Every Slender for Life® program is custom-tailored for our client. A program recommendation is given during a no-charge consultation. This program design is based upon your answers from a questionnaire and during the interview. You are evaluated for hypnotic capacity. If you are not susceptible you will be told at that time. Approximately 80% of our consultations are invited into the program.

Your program fees, guarantees, and policies are thoroughly explained. If you feel comfortable with your program, you may next complete your Personal Assessment Analysis questionnaire and schedule your appointments. Your counselor will then explain how to get started.
